In this interview conducted by David Young, professional surfer Will Hudin is interviewed about what controls he finds most useful. Hudin discusses the specifics of board design and how it affects performance. He also talks about interacting with his shaper. The source has plenty of tidbits that aid in board design. An informative tone would be helpful to any shaper.

EVALUATION OF SOURCE:

Strengths-
- A few pertinent points
- Easy to understand

Weaknesses-
- Not as topical
- Rhetoric
- Lacks detail
- Poorly conducted interview
- No good figures

Additional observations about source--
- May printed in DE
- No info on David Young--like most mag writers, there are big E in
